Title: Need to create an All India Judicial Service.

DR. UDIT RAJ (NORTH WEST DELHI): The creation of an All India Judicial Service (AIJS) was favoured by the Chief Justices Conferences held in 1961, 1963 and 1965. The 42nd Constitution Amendment Act was passed for this in 1976, but was not given effect to. The Hon'ble Court ordered in 1991 that an All India Judicial Service should be set up and the Union of India should take appropriate steps in this regard. A Constitution Bench of the Supreme Court held that a Constitutional Body like High Courts cannot be believed to oblivious to the need for a scheme of reservation. A similar judgement was again passed by the Hon'ble Supreme Court in 2016. I request the Government to create an All India Judicial Service without any further delay which fulfils Constitutional obligations of reservation and includes SCs/STs, Minorities and Women who are not presently adequately represented in the judiciary.
